Join Us!
and Help Us Fund Critical Congenital Heart Defect Research.

August 16, 2020 at 9:00 AM
Griffith Park – Los Angeles, CA

This fundraising event includes a 1-mile family-friendly walk, research remarks, kids’ activities, games, crafts, character actors, refreshments, music, remembrance and more. There is no charge to attend but participants are asked to fundraise or donate.

To register, begin fundraising and to donate, visit us at http://give.ChildrensHeartFoundation.org/WalkForCHDResearchLosAngeles or scan our QR Code.

Congenital Heart Defects (CHDs) are the most common birth defect, affecting nearly 1 in 110 babies in the U.S., and are the leading cause of birth defect-related deaths. The Children’s Heart Foundation is the nation’s leading organization solely dedicated to funding CHD research, and since 1996 has funded more than $13 million to advance the most promising research for the diagnosis, treatment, and prevention of CHDs.
